RESPONSE

In response to the Examiner's action dated May 8, 2003, please amend the application as follows. The amendments are presented below in clean form (i.e., without markings that indicate the changes that have been made); marked-up versions of the amendments are presented in the attached appendix.

In the claims:

4. (Twice Amended) An optoelectronic device, comprising:  
 an optical device system comprising an optical device substrate supporting one or more optical devices and a solderable metallization pattern having a spatial arrangement with respect to the one or more optical devices;  
 an optical lens system comprising one or more optical lenses incorporated into an optical substrate bonded to a spacer substrate having a device bonding surface supporting a solderable metallization pattern having a spatial arrangement with respect to the one or more optical lenses; and  
 a plurality of solder bumps disposed between the metallization patterns of the optical device system and the optical lens system;
